DISCLAIMER

This report is intended for general guidance and information purposes only. This report is under no circumstances intended to be used or considered directly for any kind of scientific or academic publication and clinical diagnosis. Please note that this is reference material for the original authors of the study. The report is to be considered only as a tool for hypotheses and data interpretation by the authors along with all data provided.

DISCLAIMER

The data used for constructing this material in the report is obtained directly from the customer (customer). We have taken reasonable care to ensure that, and to the best of our knowledge, material information contained herein is in accordance with information and guidelines provided by the customer. All data presented are prepared by TauGC Bioinformatics in accordance with best practices from third parties, as part of the service included in the report. The estimates are subject to uncertainties, misinterpretations and other factors that may cause actual events to differ materially from any anticipated hypotheses. Please note that we make no assurance that the underlying statements are free from errors. Neither the authors nor TauGC Bioinformatics is making any representation or warranty, express or implied, as to the accuracy or completeness of data presented in this report and none of the authors or TauGC Bioinformatics will have any liability towards any other person resulting in incorrect use this report. TauGC do not intend, and do not assume any obligation to update or correct the information included in this report.

The information contained herein may be subject to interpretation by authors. TauGC does not accept any form of liability, neither legally nor financially, for loss (direct or indirect) caused by the understanding and/or use of this report or its content.

This report is only intended for the recipients, and should not be copied or otherwise distributed, in whole or in part, to any other person. This report is subject to Brazilian law, and any dispute arising in respect of this report is subject to the exclusive jurisdiction of Brazilian courts.

CONSIDERATIONS ABOUT AUTHORSHIP & LIABILITY

TauGC Bioinformatics is not to be considered as author or co-author of any kind publication solely based on direct use of this report. Any consideration for authorship by TauGC must be discussed further by authors and TauGC Bioinformatics.

TauGC and its members follow the Nature Journals Policy for Authorship (<https://www.nature.com/authors/policies/authorship.html>) adapted from McNutt et al. 2018 (DOI: 10.1073/pnas.1715374115).
